

Residential Programme on
**ADVANCED
MANUFACTURING**

Building Industry 4.0 Competitiveness

9 - 14 July, 2018 : UK

8 - 13 October, 2018 : India

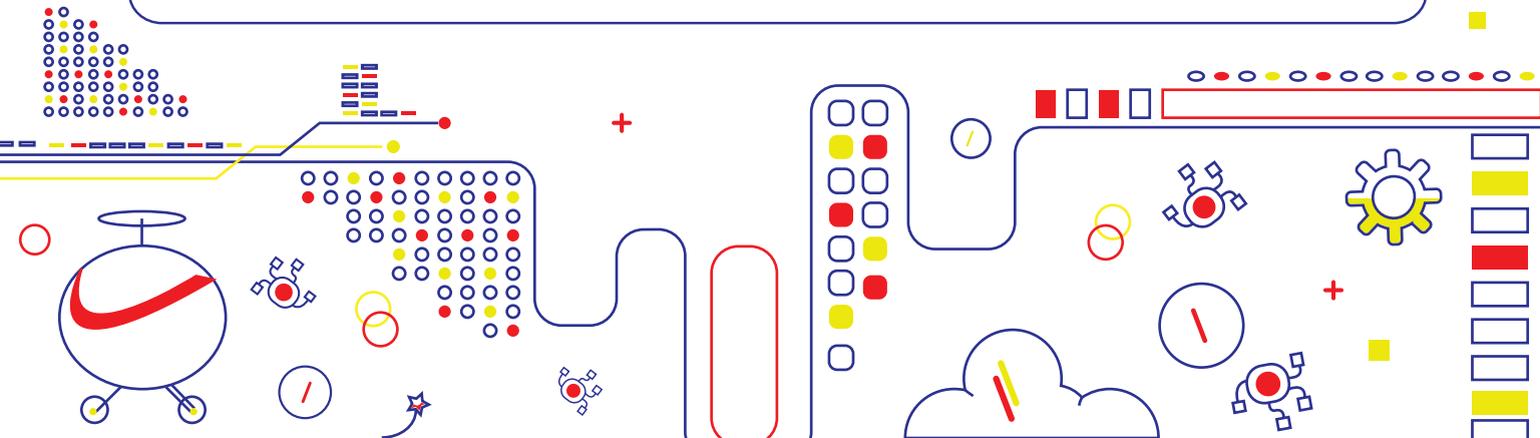

OBJECTIVES

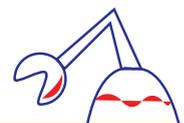

In order to support the Member companies understand the context of Manufacturing for today and tomorrow and to help future leaders understand and prepare for the big picture on the changing context of Manufacturing, the CII Naorji Godrej Centre of Manufacturing Excellence is offering this Modular Programme with the following objectives:

- Exposure to the Big Picture of the fast changing landscape of Manufacturing
- Exposure to next-gen manufacturing technologies & strategies
- Develop manufacturing leaders to enhance global competencies
- Help participants develop cutting edge tools to compete globally by giving them an outsiders perspective
- Participate in developing a revitalised narrative for India's manufacturing process

KEY TAKEAWAYS

- Developing leaders with a good understanding of the issues and challenges faced by organisations, operating in a complex and ever changing global environment.
- Promoting leaders who would be able to develop roadmap to identify key technology priorities & devise strategies to overcome disruptive challenges, resulting in a blue print for 'Future Ready' companies.
- Creating a pool of highly equipped and conscious leaders with an ability to appreciate and enable manufacturing to be a tool for global competitive advantage.

CONTENT

Module 1: Enabling Technologies for Industry 4.0

WMG, The University of Warwick, UK

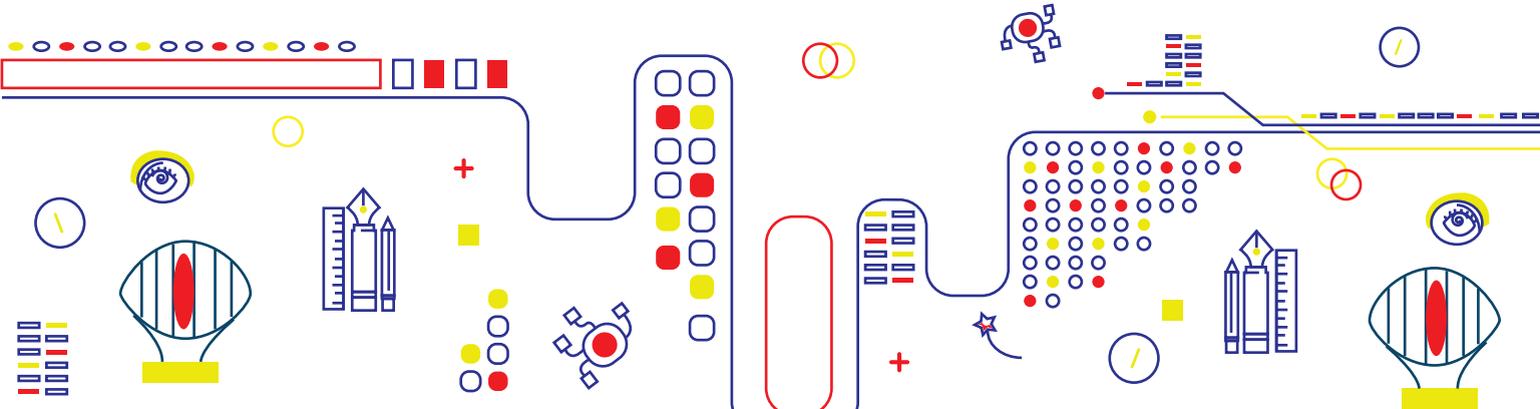

- Industry 4.0 Overview
- Digitalization and Virtual Simulation
- Lab visits on the above topics
- Sensor Technology
- Automation and Robotic
- Plant Visits
- Big Data / M2M connectivity / IOT / Cloud
- Additive Manufacturing

Module 2 : Leveraging Industry 4.0 & Beyond

Lonavala, India

- Setting the Context of Manufacturing in India
- Supply Chains and the Next Generation of Manufacturing and Value Networking
- Industry 4.0 and Technology
- Digitisation and Smart Manufacturing
- Factories of the Future
- Industry 4.0 : Analytics
- Frugal Engineering
- Lean & Beyond
- Role of Manufacturing in a VUCA world
- Industry 4.0 : Data Safety and Security
- Plant Visits
- Green Manufacturing
- Lean and Industry 4.0
- Implementing Industry 4.0 in My Factory

TARGET AUDIENCE

This programme is aimed at

- High Potential Future Manufacturing Senior Managers from Medium and Large Manufacturing Companies
- Entrepreneurs from all Manufacturing Segments and Family Businesses

SCHEDULE, VENUE & FEES

Module 1

9 - 14 July 2018

Confederation of Indian Industry

The Confederation of Indian Industry (CII) works to create and sustain an environment conducive to the development of India, partnering industry, Government, and civil society, through advisory and consultative processes.

CII is a non-government, not-for-profit, industry-led and industry-managed organization, playing a proactive role in India's development process. Founded in 1895, India's premier business association has over 8,300 members, from the private as well as public sectors, including SMEs and MNCs, and an indirect membership of over 200,000 enterprises from around 250 national and regional sectoral industry bodies.

CII charts change by working closely with Government on policy issues, interfacing with thought leaders, and enhancing efficiency, competitiveness and business opportunities for industry through a range of specialized services and strategic global linkages. It also provides a platform for consensus-building and networking on key issues.

Extending its agenda beyond business, CII assists industry to identify and execute corporate citizenship programmes. Partnerships with civil society organizations carry forward corporate initiatives for integrated and inclusive development across diverse domains including affirmative action, healthcare, education, livelihood, diversity management, skill development, empowerment of women, and water, to name a few.

The CII theme for 2017-18, **India Together: Inclusive. Ahead. Responsible** emphasizes Industry's role in partnering Government to accelerate India's growth and development. The focus will be on key enablers such as job creation; skill development and training; affirmative action; women parity; new models of development; sustainability; corporate social responsibility, governance and transparency.

With 66 offices, including 9 Centres of Excellence, in India, and 10 overseas offices in Australia, Bahrain, China, Egypt, France, Germany, Singapore, South Africa, UK, and USA, as well as institutional partnerships with 344 counterpart organizations in 129 countries, CII serves as a reference point for Indian industry and the international business community.
