CII Conference on FUTURE OF JOBS

Future of Jobs in India: Enterprises and Livelihoods

► Thursday, 08 June 2017

► Vivanta by Taj President Mumbai

► 10:00 am to 5:30 pm

The creation of more and better jobs and livelihoods is today an imperative for policymakers everywhere. Like the rest of the world, India too faces an employment conundrum. In India, the gap between numbers of jobs created and jobs required has widened despite strong GDP growth during the decade of the 2000s. Every year, 10-12 million young people join the labor force, and 5 million people leave agriculture to join the non-agriculture sectors. This Conference will explore the employment conundrum in India and discuss the way forward.
