

CII Conference on
CHALLENGES FOR INDIAN
EV MANUFACTURERS -
THE WELDING PERSPECTIVE

06 July 2018, Mumbai

Objective

The Government of India in March 2018 launched the National E-Mobility Programme in India, under which the vision is for the country to achieve 100 per cent e-mobility by 2030. The CII Conference will discuss about the changing landscape of electric vehicles in India, faced with the opportunities and challenges. The major focus will be on the role to be played by the Indian welding industry to keep pace with the disruptions around, happening in the EV space.

Conference Chair

Mr Vishwanath Kamath

Managing Director, Fronius India

Venue

The Ballroom, Vivanta by Taj President,
Cuffe Parade, Mumbai
